

Frequently Asked Questions

Q1. What is special about this PGCM (DSFM) Programme?

Data has emerged as a new functional requirement in modern age decision making. The Post Graduate Certificate in Management (Data Science in Financial Markets) is a unique programme that provides expertise on various data processing techniques and tools and their application in financial markets. The programme is ideal for those with a passion for data analytics and zeal to implement it for decision-making in financial markets – be it for product engineering, investment decisions, research, advisory, etc.

Q2. What is the structure of the Programme?

PGCM (DSFM) is a 14-month weekend Programme with classes scheduled on Saturdays (6 p.m. to 9:15 p.m.) and Sundays (10 a.m. to 5 p.m.). The Programme is divided into five trimesters. This makes it suitable for both working professionals and fresh graduates.

Q3. Is this Programme recognized by any government / statutory body?

Yes. PGCM (DSFM) is approved by the All India Council for Technical Education (AICTE). NISM is an educational institution established by the Securities and Exchange Board of India (SEBI). The SEBI background and the AICTE approval enhance the credibility and the scope of the Programme.

Q4. What will I learn in this Programme?

The Programme covers topics such as Financial Products and Institutions, Programming Language for Financial Applications, Data Mining, Machine Learning, Algorithmic Trading, Big Data Processing and Visualization, and more. The Programme combines academic elegance and business relevance to facilitate the participants to learn modalities of various financial products, followed by analytical techniques and weaves them with applications for data-based decision making. For detailed curriculum, [click here](#).

Q5. Does this Programme provide any practical exposure?

The Programme provides exposure to Data Science and Analytics tools where the participants get hands-on experience on R, Tableau and Python. The lectures and hands-on sessions will be delivered by eminent faculty and industry experts who provide the necessary practical exposure.

Q6. Where will this Programme lead to?

PGCM (DSFM) could lead to the following job profiles, which involves the fusion of data science techniques and financial analytics:

- ü Credit Research and Ratings
- ü Investment Evaluation and Portfolio Management
- ü Risk Modelling

- ü Claim Processing
- ü Fraud Detection
- ü Analysing Financial Statements
- ü Equity Research

Q7. Does NISM provide any placement assistance for this Programme?

Yes. NISM provides placement assistance to participants who successfully complete the programme. The Institute helps the participants in finding suitable data analyst profiles in financial market intermediaries. NISM's past recruiters (from other full-time Post Graduate Programmes) include Investment Banks, Analytics Firms, Rating Agencies, Registered Valuers, Investment Advisory, Stock Exchanges, Depositories, Clearing Corporations, Mutual Fund Houses, Brokerage Firms, Banks, etc.

Q8. What are the eligibility criteria for this Programme?

Graduates from any discipline, with a minimum of 50% marks, from a recognized University under 10+2+3 stream are eligible for PGCM (DFSM).

Q9. I am a working professional. Will I be able to pursue this Programme?

Yes. The classes for PCGM (DFSM) are scheduled on weekends – Saturday (6 p.m. to 9:15 p.m.) and Sunday (10 a.m. to 5 p.m.), making it suitable for working professionals.

Q10. I am in the final year of Graduation and waiting for my results. Can I apply?

Yes. Students in the final year of graduation and those who are waiting for their final results of graduation can also apply. Admissions will be provisional till the graduation marks are submitted. However, the applicant must secure the minimum percentage of marks (50%) as mentioned in Q8.

Q11. I don't have prior understanding on financial markets. Will this Programme suit me?

The curriculum is structured to disseminate knowledge on various financial products to create a level playing field among participants from diverse backgrounds. The programme will feature subjects on Financial Economics, Financial Products and Institutions, Financial Derivatives, etc. to create a fundamental understanding in these areas, over and above data science related subjects.

Q12. Is there any upper age limit for this Programme?

No, there is no upper age limit to pursue PGCM (DFSM).

Q13. What is the fee for this Programme?

The consolidated program fee for PGCM (DSFM) is Rs. 2,02,000/-. The fee is payable in three instalments of Rs. 50,000, Rs. 82,000 and Rs. 70,000. The fee includes tuition fees, exam fees, alumni fund and a refundable library deposit. For a detailed break-up of fee, please [click here](#).
