

NISM – ICAI FRRB Webinar on

EXPECTATIONS

FROM

LISTED COMPANIES

ON

FINANCIAL REPORTING

September 1, 2021

BACKGROUND

Financial statements are the primary document that stakeholders (including investors, lenders, customers, and suppliers) rely upon. These statements are intended and expected to depict the true nature of the business, and foretell its sustainability. A good audit and appropriate levels of disclosure are pre-requisites for reliable financial statements.

The rules and regulations formulated by Regulators require listed entities to make initial and continuous disclosures including disclosures of financials. However, in order to enable investors to make well-informed investment decisions, timely, adequate and accurate disclosure of financial results on a periodical basis is critical. At the same time, it is important to ensure comparability, uniformity and parity in disclosures made by such entities.

In this background, the School for Corporate Governance of NISM jointly with Financial Reporting Review Board (FRRB) of the Institute of Chartered Accountants of India (ICAI) is conducting a webinar titled **"Expectations from Listed Companies on Financial Reporting" on September 1, 2021 from 2:00 pm to 6:00 pm.**

The speakers for the programme are drawn from NISM, FRRB, Stock Exchanges, Auditors and Senior Officials of listed company with several years of experience. The webinar will provide a platform for listed companies to understand the nuances of financial reporting from a 360-degree perspective.
