# Learning-cum-Practice Programme

As a part of our initiative to develop the talent needed for securities markets, we are taking various endeavours to sensitize students to obtain a hands-on experience on securities market practices, apart from classroom sessions.

NISM is partnering with several institutions, which include market leaders, market infrastructure institutions & regulators, to achieve the same.

This Programme has ensured that our students are uniquely placed to receive wide practical exposure to market practices, which in-turn supports their classroom learning; apart from building and fostering a long- lasting relationship with the market/industry.
