MESSAGE FROM THE DIRECTOR

Dear Recruiters,

During this recruitment season, as usual, you must be looking forward to selecting people with core competencies combined with exceptional qualities.

I am happy to offer the 5th batch of Post Graduate Diploma in Management specialized in Securities Markets PGDM (SM); a group of 78 skilled professionals in the area of financial/securities markets. The USP of studying in NISM is the equal weight we give to both theory and actual application on the ground. While the expert in-house faculty predominantly deals with the former part, senior functionaries from the Market Infrastructure Institutions, regulatory authorities, and other operational entities teach practical application. As such all students are well-equipped to function in various capacities immediately on appointment.

They are a mix of fresh people as well people having prior experience; all of them eagerly looking forward to starting a right career and contributing to the growth of the organization they would join.

Learning-cum-Practice Programme

As a part of our initiative to develop the talent needed for securities markets, we are taking various endeavours to sensitize students to obtain a hands-on experience on securities market practices, apart from classroom sessions.

NISM is partnering with several institutions, which include market leaders, market infrastructure institutions & regulators, to achieve the same.

This Programme has ensured that our students are uniquely placed to receive wide practical exposure to market practices, which in-turn supports their classroom learning; apart from building and fostering a long-lasting relationship with the market/industry.
