

Ideathon 2026 Deliverables from Students:

Case study–based approach to evaluate the root cause (real or hypothetical).

Final deliverables

1) **Project report 4-5 pages (A4, Times New Roman, 12 pt (font size), 1.5 spacing), target approximately 1,500–1,800 words)**
2) **10 slide presentation.**

- **Maximum Slides Allowed: 12 slides**
- Includes **Title Slide** and **Thank You Slide**
- **Core content restricted to 10 slides**
- Exceeding the slide limit may impact evaluation.

Suggested Project Report [1]/ Slide Structure (Ideathon Focus)

Slide 1 – Case Study Overview

- Brief summary of the case study
- Context, background, and relevance to investor awareness, financial literacy, securities markets, etc.

(Assesses: Relevance to Ideathon Theme)

Slide 2 – Lacunae Identified

- Key gaps, weaknesses, or failures in the existing system
- Why current mechanisms are insufficient

(Assesses: Problem Identification & Contextual Understanding)

[1] The details of the idea presented in the presentation should be elaborated upon in the project report.

Slide 3 – Idea Statement

- Clear and concise articulation of the proposed idea
- What the solution seeks to achieve

(Assesses: Originality & Problem-Solving Approach)

Slides 4–6 – Proposed Solution

Slide 4: Solution framework / design
Slide 5: Resources required

- Hardware
- Software
- Human resources

Slide 6: Stakeholders & regulators involved

RBI / SEBI / Police / Government / Other agencies
(Assesses: Feasibility, Viability & Regulatory Awareness)

Slide 7 – Regulatory Perspective

- Existing regulatory framework
- Limitations or constraints in current regulations

(Assesses: Regulatory Understanding & Practical Viability)

Slide 8 – Suggested Regulatory / Policy Changes

- Proposed amendments or policy interventions, if any
- Alignment with existing legal and institutional frameworks

(Assesses: Originality, Practicality & Policy Relevance)

Slide 9 – Probability of Scam Reduction / Risk Mitigation

- Expected effectiveness of the solution
- Quantitative or qualitative basis (e.g., estimated 70% reduction with justification)

(Assesses: Impact & Value Creation)

Slide 10 – Impact & Feasibility

- Practical implementation
- Scalability and sustainability
- Key risks and limitations

(Assesses: Impact, Scalability & Sustainability)

Important Note

- Total slides must not exceed **12 slides**, including Title and Thank You slides.

Key Requirements from Participants

- Maintain **clarity, conciseness, and time discipline**
- Focus on **practical, implementable, and regulator-aware solutions**
- Avoid excessive theory or jargon
- Demonstrate **impact, feasibility, and regulatory alignment**
